

With EZ Battery Reconditioning™...

## "Bringing Dead Batteries Back To Life Is Simple!"

Dear Battery User,

Do you want to discover how to:

- ✓ Easily Bring Old Batteries Back To Life Again
- ✓ Save Thousands Of Dollars On The Cost Of Batteries Over Your Lifetime
- ✓ Recondition Old Batteries & Resell Them For Big Profits
- ✓ Increase The Lifespan Of New & Old Batteries

...Well now you can!

And it's actually quite simple to do...

And if you keep reading this page, you'll learn about the new resource that makes this possible!

It might sound crazy but you'll soon see how any family around the world can now use simple methods to recondition old batteries back life again.

So now, instead of buying new, overpriced batteries every time one gets old or dies...

People can recondition and reuse their old batteries instead...

**Saving them thousands of dollars** on the cost of batteries over their lifetime.

Over this past year alone...

*Tom Ericson*

**Co-creator of EZ Battery  
Reconditioning™**

Tom has reconditioned hundreds (maybe thousands) of old batteries back to life again over the years. And he's helped thousands of other people do the same.

### Take A Look At What People Are Saying...

#### **"This already saved me \$120 on a car battery!"**

*When my car battery died, I decided to try out the EZ Battery Reconditioning method instead of buying a new (expensive) battery. And in just 25 minutes, I reconditioned the battery and it works fantastic again! This already saved me \$120 on a car battery! I can't wait to try this on other batteries now.*

--Jeff Dobbins

## "I've Saved Over \$400 On Batteries!"

*I can't believe how simple your reconditioning steps are! My old (and once dead) car batteries, cell phone battery, drill battery, camera battery and tons of other batteries are all reconditioned and working great again! Since starting your program I've saved over \$400 on batteries!*

--Jen Simmons

## "I wish I would have found this years ago!"

*I recently got the EZ Battery Reconditioning program and just reconditioned two car batteries. The guides were very easy to follow. I wish I would have found this years ago! Thanks!*

--Frank Murray

## "I've reconditioned 17 batteries with EZ Battery Reconditioning"

*I was curious about your program so I decided to try it out after hearing from a friend how well this worked for her. I'm so glad I did! I've reconditioned 17 batteries with EZ Battery Reconditioning, even an old car battery I thought was long gone. My son likes using your program too! This is a skill everybody should know! Thank you, Tom and Frank.*

--Ceceil Neel

As you probably know, batteries are expensive and prices keep going up.

The average family is spending more and more of their hard earned money - each month - on all kinds of batteries...

Just think about it...

How much of your hard earned money do you spend on replacement batteries for your car, tools, laptop, cell phone, electronics, and other devices?

**The average person already spends over \$15,000 in their lifetime!**

And to make matters worse...

**The demand for batteries is skyrocketing** because our modern world continues to require more devices, tools, and vehicles that are solely powered by batteries...

This means the amount most people spend on batteries, each year, is only going to go up!

But it doesn't have to be like this because...

### **Did You Know: Battery Reconditioning Is a Simple Skill That Every Person Should Use When Their Batteries Get Old or Die**

If your batteries die, **DON'T THROW THEM OUT!**

If you have a box of old batteries, **SAVE THEM!**

You can bring these back to life again and reuse them - and save yourself a small fortune!

A lot of people these days don't know this but...

Years ago, many people knew how to recondition their old car battery - to maximize its lifespan.

But nowadays, most people don't know this incredibly valuable and money-saving skill...

Most people also don't know **you can recondition many other types of batteries besides just dead car batteries.**

And the truth is...

Bringing Old Batteries Back To Life  
With EZ Battery Reconditioning

**If you don't recondition your old batteries, you're wasting hundreds (maybe thousands) of dollars every year on battery costs!**

But the good news is...

Battery reconditioning is actually shockingly simple to do!

**Even if you know nothing about batteries and have NO DIY skills, you can easily do this!**

People Using EZ Battery Reconditioning

And once you learn this, you'll no longer throw away hundreds, maybe thousands of dollars each year on new, overpriced batteries.

**And you can bring all kinds of old batteries back to life again...**

You can recondition everything from old car batteries...

To nearly every type of lead-acid battery, like deep cycle, solar, marine, golf cart, wheelchair, scooter, and forklift batteries.

You can also recondition other types of batteries too like power tool batteries.

So if your expensive car battery or rechargeable drill battery is getting old, you can recondition these instead of going out and buying a new overpriced battery.

And yes, there are even simple methods you can use to boost and extend your old laptop, cell phone, AA, AAA, D, and C batteries!

Years ago, a man named Frank Thompson taught me everything I know about battery reconditioning.

Frank runs a battery reconditioning & servicing business in South Carolina where he goes around to businesses and hauls away their dead batteries for free...

He then reconditions those batteries and resells them for a nice profit.

When Frank showed me how to recondition batteries, I couldn't believe people everywhere didn't already do this!

**It's one of the most simple, useful, and money saving DIY skills anyone can learn!**

Most skills that save you this much money take years to master but battery reconditioning can be learned in one or two afternoons.

And it only takes 10 to 15 minutes to actually recondition most batteries!

It's also really fun to do because, right before your eyes, you see how a battery goes from working poorly to working great again.

“

***This has saved us so much money!...***

*"We've reconditioned an old car battery, batteries we use in our off-grid system, and also my husband's drill battery so far! This has saved us so much money and we both can't thank you enough!"*

**Phoebe Gibbs**

After I learned these skills from Frank, I knew we couldn't keep this a secret...

So I called up Frank and asked him if he wanted to help me create easy to follow, step-by-step guides that anyone can use...

To recondition all types of old or dead batteries back to life again.

After a little arm twisting and after I emphasized how many people he could help, he gave in and loved the idea too!

So, the next day we started, and for the next few months we worked day and night.

Our main priority was to make sure the guides were so easy to follow absolutely anyone could follow them to recondition nearly every type of battery out there...

Even people who have absolutely NO technical skills and don't know the first thing about how batteries work.

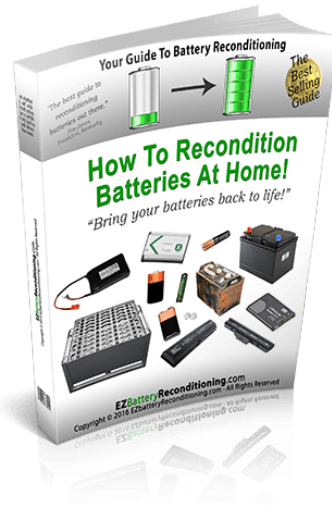

Bringing Old Batteries Back To Life With EZ Battery Reconditioning

And after months of hard work...

The EZ Battery Reconditioning™ program is the easy to follow, step-by-step system anyone can use to recondition all kinds of old or dead batteries!

...with just simple supplies you probably already have in your home.

As Seen On...

In this past year alone, over 19,541 people from all over the world have already used the EZ Battery Reconditioning program to recondition their old batteries back to life again.

Inside the program (which I'll show you how to get access to in just a second)...

You'll be able to use our **step-by-step guides that will show you how to recondition nearly every type of battery** out there.

The guides are full of pictures and diagrams so you not only read exactly what to do...

You see exactly what to do as well!

It's like having me and Frank standing there with you, guiding you every step of the way as you recondition your batteries.

Both Frank and I put a lot of time, money, and effort into developing this program because we know how much it can help people.

And that's why we also wanted to make sure it was accessible to everyone!

So we made the guides something you can download to your computer, tablet, or smart phone, so you can use our simple reconditioning methods ANYWHERE and ANYTIME.

Now, no matter where you are when one of your batteries dies, you can pull up our guides on whatever devices you have with you, and immediately recondition the dead battery.

You can even download and print the guides to use them off-line.

And on top of that...

The simple methods we teach are safe, easy-to-do and can be done by anyone - in any country.

The Guides Are So Easy To Follow (and full of step-by-step pictures and diagrams)...
