You will also find many positive customer reviews on the official website. That is why we will try to do this review and see if the reviews are real.

There's probably nothing more annoying than a ringing contest happening right in your ear drums. A constant shrill of sounds keeps playing in your background, making you restless. Oftentimes, this restlessness is quick to translate into sleeplessness.

Other times, it can translate into pure frustration and rage. Of course, you've tried most of the possible pharmaceutical solutions available. But, like many others, you find that the pills are mostly useless - either not showing results or showing only temporary ones. Lucky for you, there's an effective solution out there that comes with the name of Sonus Complete.

This is an all-natural solution for tinnitus. Unlike most of the over-the-counter solutions, it is not packed with a bunch of synthetic ingredients. Usually, such ingredients deliver lots of side effects whether those show up in the short run or in the long haul. Either way, you have to deal with adverse health risks, which makes whatever results you reap useless.

In the case of this supplement, you don't have to deal with negative health impacts. Its natural composition is promising and effective. It is also safe to take and comes with minimal risk of side effects. Hence, it is clear that this solution is a good pick for solving the ringing problem in your ears.

This is why this formula solves this issue by boosting your cognitive well-being. On your part, you only have to be consistent in the use of this supplement. This means you need to take it daily, which shouldn't be much of a challenge since this supplement comes in the form of soft gels. Thus, you only need to take your recommended dose with water and that is all.

## How Does It Work?

Can I tell you the story of Gregory Peters? Gregory Peters himself was a victim of "Tinnitus." According to Merriam Webster dictionary, Tinnitus is a feeling of noise (as roaring or ringing) caused by a bodily situation (as an interruption of the auditory wax or nerve in the ear) and usually is of the personality type which can just be felt by the one affected. This can be said to be a medical condition that affects one's ear, whereby the individual is the only one who can listen to the sounds and ringing.

Remember the times when taking your bath and water goes into your ear. That awkward feeling afterward, that kind of sound and ringing you hear at the time, that's synonymous with the type of sounds and ringing associated with tinnitus, trust me, it's not a good feeling, one which you can't even wish on your enemy.

Peters was so disturbed by his medical conditions that he almost lost his mind by shooting at his family, not that he wanted to, but this unwanted condition tampered with his brain, and he was misbehaving. He was

battling this ailment for many years and had tried many treatments to get back to normal but to no avail. This horrible experience led him on a search for a natural solution for his condition.

Peters went on to discover this completely natural and inexpensive way of fighting this condition, which enabled him to be free of the situation and hear entirely again.

[The Sonus Complete Formula](#) begins with clearing and repairing the brain system, so the nervous system can be relieved. This usually begins in the earliest few days of using the product.

### **Ingredients in Sonus Complete:**

[Sonus Complete is filled with natural ingredients](#) such as Vitamins, Berries, and Oil. All these three elements work together to help you fight against tinnitus.

**VitaminB3:** This helps you to improve your blood flow and circulation to those parts that have been affected by tinnitus. It will relieve insomnia pains that you feel in your ear and help you build your muscles.

**Hibiscus and Hawthorn Berries:** is a famous plant used all over the world for medicinal purposes. It contains antioxidant elements that prevent liver damages, aids in weight loss, and improves the health of your nervous system. These two ingredients combined well to relieve you of stress and anxiety. Also, they work to soothe your brain to accelerate recoveries from the constant ringing and sounds in your ear.

**Bearberries:** Bearberries are natural ingredients that help boost your inflammation and bring improvement to your immunity to tinnitus. To see a significant result, you can combine this with other ingredients like Juniper berry, Green tea, and Vitamin C. It also prevents heart problems, reduces blood fats, lowers blood pressure, and, significantly, contains an anti-inflammatory formula that treats primary causes leading to tinnitus.

**Green Tea Extract:** This works well in helping you to fix brain disorders that accompany tinnitus. Also, it includes antioxidants that allow you to improve your neural connections in your central nervous system.

**Vitamin B6 and B12:** These two ingredients can not be overlooked because they work together to improve your hearing quality.

**Garlic Extract:** One of this ingredient's principal functions is to improve and enhance the sleeping condition. The inability to sleep at night is the biggest threat to people suffering from tinnitus. It also helps to prevent dizziness, which comes as a result of untreated tinnitus.

**Olive Oil:** Olive oil also contains antioxidants that help fight against symptoms of tinnitus. It allows you to prevent memory loss and reduces the magnitude of the ringing and buzzing sounds in your ear.

**Vitamin C:** This works well in strengthening your bone and aids smooth absorption of iron to your body. It is also believed that it increases the count of erythrocytes in the blood.

All these ingredients are natural, and they are what made Sonus Complete a must-use supplement for you to help you prevent the constant buzzing and ringing in your ear.

**You'll soon be able to SHUT OFF that cringing sound that's been ruining your life and feel completely NORMAL again...**

Your days will be quiet and peaceful...

No more headaches, dizziness or nausea...no more constantly feeling angry and depressed...

Forget the dreadful, sleepless nights, when you were tossing and turning, praying for just a second of silence...

You'll no longer have to struggle at work, trying to figure out what your colleagues are saying and asking "What?" all the time...or pretending you're focused and serene when that piercing buzz is following you EVERYWHERE...

Moreover, you'll regain your social life, finally being able to relax and go out with your friends and family, even in the noisiest places...

Just like 47,000 other people did. People like...

**Tinnitus is not an ear disease, a bacterial infection, or a virus...but a symptom of a hidden condition...**

Now, I have two simple questions that will help you find out what's REALLY behind your tinnitus...

The first question is only for those few who have tinnitus for less than 7 days and flu-like symptoms. So...

Do you have tinnitus FOR LESS THAN 7 DAYS, and are you also experiencing high fever and headaches?

If your tinnitus is that recent and you're also feeling sick, go to the doctor immediately! I'm serious...

You might be dealing with meningitis which, there's no delicate way to put it, is a lethal condition unless treated urgently.

Now, my next question is for those with long-term tinnitus, just like me...

Do you have tinnitus FOR MORE THAN 7 DAYS?

If YES, it's crucial you know what happened to me so you don't make the same painful mistakes and get directly to the incredible method I've discovered...

Because you're dealing with chronic tinnitus and, even though doctors know it's a symptom, they have no clue what exactly causes it...

That's why they'll have you undergo a lot of useless and expensive analysis, just like the top-notch doctor did with me...

I underwent blood tests, peed in a jar, had my neck checked, my jaw, my pulse, and pretty much had all my internal organs scanned...

It felt like looking for a needle in a haystack!

And if I was so healthy, where in the world did my tinnitus come from?

I started reading everything I could find on forums and discovered many folks believed tinnitus is caused by exposure to loud noises but that wasn't my case, as I worked in a library, one of the quietest places on earth...

I was completely puzzled!

The ringing and whooshing in my head just became something I learned to live with... I just thought the older you get, the worse your health becomes, right?

But years passed by, and by the time I reached 50 years, the ringing in my ears went from "pretty annoying" to "power-drill annoying"...

Sometimes I even heard 3 different sounds, all at the same time...

There was a low buzzing sound and the sensation of blood pumping through my veins Â too...

Plus, my nerves were so burned out that I once yelled at my wife for opening a plastic bag of rice near me...

And not only was a loud noise enough to put me to the ground but there was something else happening, both bizarre and frightening...

All in all, [Sonus Complete is a viable solution for tinnitus](#). It is helpful in cases of chronic ringing in your ears. The formula corrects your cognitive well-being to reduce the shrill sounds in your ears. It also improves your energy levels and promotes restful sleep.

The website says: "Sonus Complete has shown drastic improvement in alleviating the chronic symptoms and negative effects. People who used this product testified to the benefits and effectiveness in curing Tinnitus in less time and in a cost-effective manner."

What does Sonus Complete Do? This Sonus Complete supplement can do a number of great things. For one, it clears out tinnitus in a matter of two to three weeks. It's recommended that you take two capsules each day in order to see its full potential.

Sonus Complete by Gregory Peters is a potent supplement for ringing in ears that taps into the potential of natural ingredients for reducing tinnitus. This is the medical name for the cringing sounds that play in your ears. Since the composition is natural, it is safe to take. What's more, it's potent composition goes to the heart of the problem to adequately correct it. All this happens without you having to compromise with any side effects. This makes the supplement unique as well as effective.

## Brain Scan Uncovers The Real Root Cause Of Tinnitus and what you can do about it starting today

### **What exactly happens inside your brain when you have tinnitus?**

It was this eye-opening study from the University of Iowa in the US and it made me feel like I was in a sci-fi movie...

As it showed how, for the first time in history, signals relating to the constant ringing noise had been mapped across the brain of a patient undergoing surgery.

In plain English, scientists "followed" tinnitus during an open brain operation and recreated its "circuit".

And the result was mind-blowing, and not metaphorically speaking...

## **Thanks to this experiment, scientists discovered tinnitus is a disease of the networks that connect the brain.**

In other words, that buzz you're hearing...

Is the buzz of the "communication lines" that have been altered and can't pass the information properly from one brain cell to another...

These "communication lines" we're talking about, they're called "synapses" in medical terms...

And they're the ones that make sure the vital "brain signals" are strong enough to get from one side to the other so that everything functions properly...

Let me ask you: do you know that high-pitched, screeching sound you sometimes hear over the phone?

Or maybe that whooshing that gets you thinking your phone is being tapped?

Those sounds really resemble tinnitus, don't they? Well, that's a truly strange coincidence because...

Any disturbing sound in your head means the brain signals went wrong...and it's a sign that the communication lines are jammed, overheated, or weakened... and need to be fixed FAST!

Otherwise, one by one, the communication networks break down, the brain cells disconnect and your brain shuts down...COMPLETELY.

The more I read and thought about it, the more I realized the gut-wrenching truth...
